Sidewalls

Adding an On Call Sidewall

In order for the publisher to add a sidewall with this option they will need to use javascript to invoke the **newSidewall** method, passing in a valid placement:

```
freestar.queue.push(function() {  
  freestar.newSidewall("placementName");  
});
```

Deleting an On Call Sidewall

In order for the publisher to remove a sidewall with this option they will need to use javascript to invoke the **deleteSidewall** method, passing in a valid placement:

```
freestar.queue.push(function() {  
  freestar.deleteSidewall("placementName");  
});
```
