Pushdown

Adding an On Call Pushdown

In order for the publisher to add a pushdown with this option they will need to use javascript to invoke the `newPushdown` method, passing in a valid placement:

```
freestar.queue.push(function() {  
  freestar.newPushdown("placementName");  
});
```

Deleting an On Call Pushdown

In order for the publisher to remove a pushdown with this option they will need to use javascript to invoke the `deletePushdown` method, passing in a valid placement:

```
freestar.queue.push(function() {  
  freestar.deletePushdown("placementName");  
});
```
